REF - GST/02/2025

Sunglasses is not just a beauty product They protect our eyes from short-term strain and discomfort as well as long-term damage such as blindness, cataract and eyelid skin cancer. We can save these things by using Sunglasses.

The WHO/NPCB (National Programme for Control of Blindness) survey has shown that there is a backlog of over 22 million blind eyes (12 million blind people) in India, and 80.1% of these are blind due to cataract. The annual incidence of cataract blindness is about 3.8 million.

I humble request you all above items are under protective for human eyes and human life.

In India, 36% people are already suffering for Myopia and it will be increasing day by day example like Singapore and China In these countries 80% people suffered in this myopia epidemic so don't increase the GST on these items for human welfare.

Your Sincerely

Subash Kumar Bansal

President
